# Oven Shield

**Oven Shield** forms a layer that protects oven surfaces from baked-on splashing fats and oils. This easy-to-use product minimizes scraping & scrubbing and eliminates the need for aggressive cleaners.

## Product Attributes

- Reduces cleaning time
- Protects oven surfaces from baked-on fats and oils
- Minimizes scraping and scrubbing
- Eliminates need for aggressive cleaners

## Physical Properties

**Appearance:** Blue, Viscous
**Liquid pH range:** 10.0 - 10.5

**Bottle Size:** 32 oz
**Package Size:** 6 per case
**Part #:** DCT 030140

## Recommended Directions for Use

1. Preheat oven to 150 - 170F
2. Apple **Oven Shield** on warm, interior surfaces of the oven, avoiding the heating elements. Allow to dry.
3. Use the oven as usual per instructions
4. Cool down the oven. Clean the oven with a mild, soapy solution. Wipe off with a wet towel. Repeat if necessary.
