# PRODUCT INFORMATION

# UNIWASH FC-20

## Industrial Floor and Multipurpose Cleaner

## Product Description

**UNIWASH FC-20** is a mildly alkaline, non-corrosive, non-hazardous cleaning compound designed for multipurpose use, including floor cleaning application. The product is equally effective if used either in automatic scrubbing machines or in hand mopping application at proper dilutions.

## Features

- Superior cleaning – degreasing capacity of the product at relatively high water / product dilution ratios.
- Excellent ability to emulsify variety of oils picked by the solution off the floor.
- Very good hard water tolerance.
- Moderate foaming properties.

## Recommended Concentrations

**The UNIWASH FC-20** use concentrations depend on application:

**AUTOMATIC SCRUBBING MACHINES**: the 2 – 5 %wt range is sufficient for normal cleaning;

**AUTOMATIC SCRUBBING MACHINES (HEAVY-DUTY APPLICATION)**: the 4 – 8 %wt is sufficient;

**HAND MOPPING**: the 3 – 10 %wt range is sufficient for normal cleaning.

## Typical Characteristics

| | Unit | Test Method | Value |
|---|---|---|---|
| **Concentrate** | | | |
| Appearance | Visual | Visual | Clear, yellow liquid |
| Density | kg/m3 | ASTM D 1298 | 1.02 – 1.04 |
| | lbs/gal | Calculated | 8.50 – 8.70 |
| Active ingredients | Percent | Calculated | > 12 |
| pH | N. A. | ASTM E70-97 | 10.2 – 10.4 |
| Product identification | N. A. | | DCT090110 |
